Clean and Care

- Frequent wash may affect the performance of the product.
- Any stain, spills or soiling should be cleaned up promptly with a neutral soap solution using a cloth in smooth circular movements.
- We do not accept responsibility for any damage resulting from inappropriate use, chemical cleaning or additional impregnation.

The analytical results are referred only to the sample tested. Discoloration and colour deviations tolerated by permissible industrial standards do not constitute reasons for claims. Colour migration may occur. Pilling is a natural phenomenon that occurs due to daily use and frequent washing and cannot be avoided. We reserve the right to modify, at any moment and without notice, any product specifications.
